

TNT CAPITAL

About Story + Wireframe + Narrative Motion

Desktop. The institution page: who TNT is, at the scale of the work.

This page continues the homepage. The homepage About chapter is the doorway. This page is the room. The visitor should understand the institution before they meet any person, and they should never meet a person, office, or role that does not exist.

01 / Story map

One continuous reading of the institution, not a team brochure and not a second homepage.

The visitor already knows the horizon. About tells them who is accountable inside it.

	SECTION	MODE	STORY JOB
01	Arrival	IDENTITY	State the institution in the grammar inherited from the horizon. No second landscape.
02	The work	STRUCTURE	Show one firm expressed as four activities. Not four products.
03	Principles	CHARACTER	Show how TNT holds itself. Substance before scale.
04	Founder	ACCOUNTABILITY	Make the founder visible after the institution is clear, and secondary to it.
05	People	PRESENCE	Show real colleagues and advisors, or do not render the section.
06	Invitation	CONTACT	Offer a present-day way to work with TNT. Not a careers page.
07	Footer	GROUNDING	Resolve into the same institutional footer as the rest of the site.

Page job. Answer who is behind TNT Capital without turning the site into a personal brand, a large-firm imitation, or a manifesto. Doctrine lives on Manifesto. The long horizon lives on Vietnam 2045. Capital lives on Investment Management. Builders live on Venture. About holds identity, principles, and people.

02 / Relationship to the homepage

Homepage About converts atmosphere into one institutional statement. This page stays inside that conversion and goes further.

INHERITED OBJECT

Object	The editorial rule that the homepage horizon becomes.
From homepage	If the visitor enters from the homepage About chapter, the white surface and the rule should feel continuous. Do not replay the landscape compression.
Direct visit	The rule is already settled at the top of Arrival. No cinematic prelude. The page must work with no memory of the homepage.
What it does here	It organizes identity, then divides into the four activities, then tightens into principles, then frames the founder.

WHAT THIS PAGE DOES NOT RETELL

Vietnam 2045	One sentence of conviction. The publication is the destination.
Manifesto	Principles here are short. Doctrine is the long form.
Insights	Named as a practice, not a second article rail.
Investing	Named as an activity. Philosophy stays on its own page.
Venture	Named as participation in capability still forming.

Tone. Homepage rhythm is atmosphere at the edges and clarity in the middle. About is clarity throughout. Atmosphere returns only in the closing invitation, as a low horizon on Dark Green. The page should feel slower and more still than the homepage.

03 / Layout grammar

Same desktop system as Homepage v3. About spends it on reading, not on pinned sequences.

DESKTOP GRID

Canvas	1440 px design target. Full-bleed backgrounds only on the closing Dark Green field.
Content	About 1280–1320 px maximum frame.
Grid	12 columns. Prefer 7/5 and 8/4 over equal halves.
Margin	About 56–72 px.
Reading	Body copy stays inside 4–5 columns even when the section is wide.
Rule	One dominant idea per viewport.

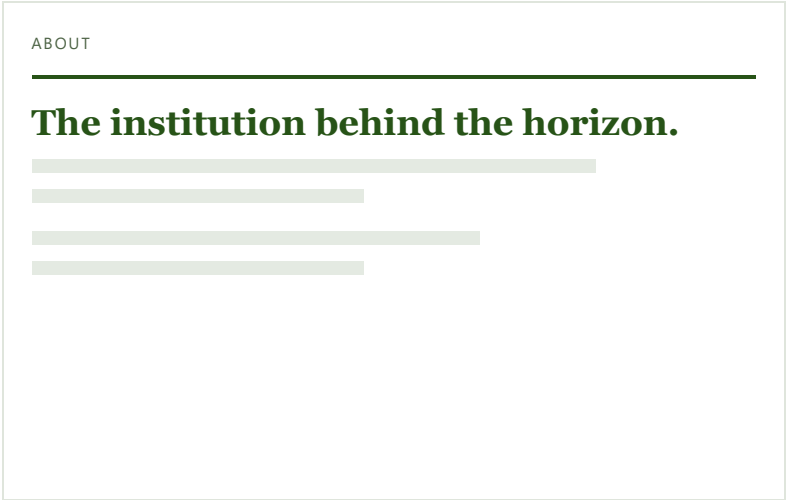

SURFACE RHYTHM

Arrival	White. Dark Green headings. Text Ink body.
The work	TNT Mist.
Principles	Soft Gray.
Founder	White.
People	White, continuous with Founder if the section exists.
Invitation	Dark Green. White headings. Mist body.
Footer	White or Mist. No animation.

Motion budget. No pinned horizontal rail. No filtering spectacle. No recomposing image collage. Section-to-section handoff of the editorial rule is the only transformation that carries the story. Military Green is not a section fill. Koi Red is a 1 px line only, never type.

04 / Arrival

Who we are — the institution, already in structure.

Label in columns 1–2. Statement from column 3 toward column 10. Body beneath, max 5 columns. No photograph.

Height	About 90–105 svh. Enough for the rule to be read as structure before the statement.
Surface	White.
Imagery	None. The rule is the visual memory of the horizon.
Header	Standard site header, not a transparent hero overlay.
CTA	None in the first viewport. Do not ask for contact before the institution is clear.

WORKING COPY

Eyebrow. About

Statement. The institution behind the horizon.

TNT Capital is a long-term investment institution and venture builder. It allocates capital, develops original insights, and supports companies and people capable of building lasting value.

The outlook is global. The conviction is specific: Vietnam’s development is part of how TNT sees the long horizon. The firm is shown at the scale of the work it actually does.

05 / The work

One institution, four expressions. Not a services menu.

WHAT TNT DOES

Four expressions of one firm.

01 INVESTING

Public and private markets.
Judgment and allocation. No fund disclosure on this page.

02 INSIGHTS

Research as a practice and a public record of how the institution thinks.

03 VENTURE

Building and supporting companies while capability is still being formed.

04 PARTNERSHIPS

Selective work with institutions, founders, and operators.

Height	About 100–120 svh. Readable in one hold. Not a pinned gallery.
Surface	TNT Mist.
Layout	Intro on the left, four positions across the lower frame. Each position is a rule plus a short paragraph, not a card, icon, or illustration.
Links	Investing, Insights, and Venture link to their pages. Partnerships links to Contact. Labels stay Source Sans, not serif UI.

COMPOSITION TEST

The four positions should feel divided from one rule, the way the homepage rule divides into research windows — with a different meaning. Here the division is the institution’s work, not a set of questions. Equal visual weight. No “featured” pillar.

Boundary. Do not describe fund size, investors, performance, holdings, or a private offering. Do not list ventures or articles here.

06 / Principles

Character of the firm. Related to investment judgment, and not the same sequence.

HOW TNT WORKS

01

DISCIPLINE

Understand before acting. Activity is not evidence of seriousness.

02

INTEGRITY

Publish and present only what is true and already real.

03

COMPETENCE

Research, judgment, and steady execution over appearance.

04

DURATION

Long horizons, including Vietnam, without pretending the firm is larger than it is.

Height	About 100–115 svh.
Surface	Soft Gray.
Layout	5/7. Left: eyebrow, title, one sentence, link to Manifesto. Right: four principles, stacked, thin dividers, 01–04.
Imagery	None. Rules, type, and spacing carry the section.
Link	Manifesto, as the long form. This list is not the doctrine.

Distinct from Investment Management. The homepage investment sequence filters questions into allocation. This sequence filters appearance into character. Same family of restraint. Different subject. Do not reuse the three investment principles verbatim.

07 / Founder

Visible, so accountability has a name. Secondary, so the institution stays the subject.

FOUNDER

Founder-led.

Not founder-centered.

PORTRAIT SLOT

ONLY A REAL PHOTOGRAPH

Height	About 100–120 svh.
Surface	White.
Layout	7/5. Statement and biography on the left. Portrait on the right, rectangular, no circular crop, no decorative frame.
Slots	Name. Role: Founder. Two short paragraphs. Optional professional link. Link to Founder’s Notes.
Portrait	If no approved photograph exists, omit the image. Do not use a monogram, illustration, or stock figure.

BOUNDARY LINE UNDER THE BIO

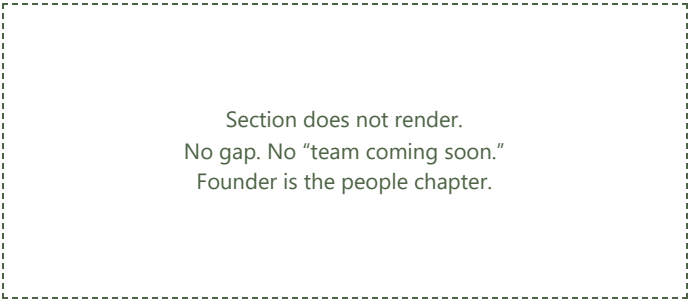

Personal voice belongs in Founder’s Notes. Everywhere else, TNT speaks as the institution.

Order is fixed. Founder never precedes Arrival, The work, or Principles. A visitor who lands on a person-anchor still meets the institution first; do not offer a layout where the portrait is the hero.

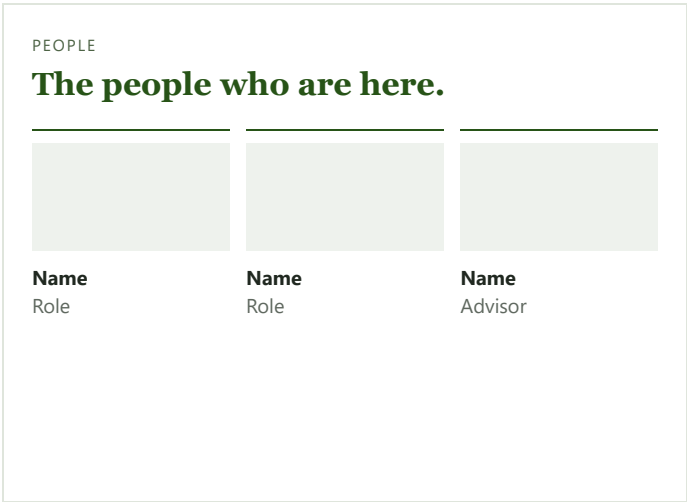

o8 / People

Real people are shown. An empty roster is omitted.

STATE A — LAUNCH, FOUNDER ONLY

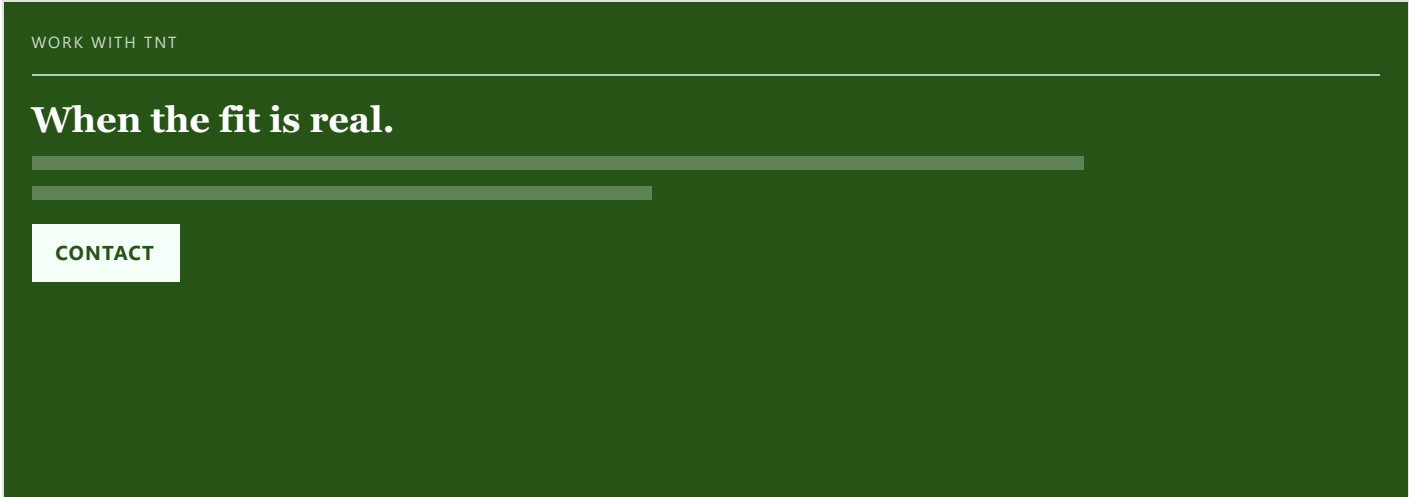

STATE B — CONFIRMED PEOPLE EXIST

RULE	APPLICATION
CATEGORIES	Founder is already shown above. Further groups are only Team and Advisor, and only if at least one public person exists in that group.
OMIT	Empty seats, open roles, fictional departments, offices, and "growing team" language.
TREATMENT	Quiet row. Name, role, optional short line, optional link. No org chart. No hover biographies that hide the fact of a small firm.
PHOTOS	Real photographs only. A person may appear without a photo. A photo may not appear without a person.

09 / Invitation + footer

The long horizon becomes a present way to approach the institution.

TNT CAPITAL LINE DESCRIPTOR	NAVIGATE	CONTACT	ENGLISH / VIETNAMESE
--------------------------------	----------	---------	----------------------

Height	Invitation about 80–95 svh. Footer is content-height, static.
Surface	Dark Green, then White or Mist footer.
Copy	One headline. One short paragraph. One action: Contact.
Horizon	A low-contrast horizon line returns, same emotional register as the homepage close. Not a replay of the hero photograph.
Careers	No openings module unless a real role is approved for the public site. Do not reserve a blank row.

WORKING COPY

Headline. When the fit is real.

A strategic partnership, an investment introduction, a company, or a research question. One path in.

Inquiry types live on Contact, not as a second form here: strategic partnership, investment opportunity, founder or company introduction, research, media, general.

10 / Scroll choreography

The transitions are quieter than the homepage, and they still hand one object forward.

TRANSITION	VISUAL SHIFT	STORY MEANING
ARRIVAL HOLDS	The editorial rule is already a line on White. The statement reveals by whitespace, not by a generic fade.	The world has already become structure. The page begins there.
ARRIVAL → WORK	The single rule extends, then divides into four measured segments over the four activities.	Identity becomes the work of the firm.
WORK → PRINCIPLES	The four segments lose equal spread. Spacing tightens. Four short rules restack into the 01–04 principle column. Mist resolves to Soft Gray.	Activity becomes character. Noise drops.
PRINCIPLES → FOUNDER	The principle column releases. One remaining rule moves to the top of the founder block and sets the width of the biography, not the portrait.	Character acquires a name. The person sits inside the structure.
FOUNDER → PEOPLE	If people exist, the rule opens into a short row of real names. If not, the rule travels on toward the close with no empty interval.	The institution is only as peopled as it is.
CLOSE	White releases into Dark Green. A low horizon returns. Motion slows until only Contact is interactive.	Identity becomes an invitation.
FOOTER	Dark field releases into a static utility footer.	The page resolves into the institution.

Pace. Do not pin Arrival, The work, or Principles. The visitor should be able to read each chapter without fighting a scrub. If a handoff makes type move under the eye, drop the transform and keep the incoming rule in the right place.

11 / Blueprint

About at a glance.

SECTION	SPACE / SURFACE	FEELING
HEADER	Standard / White or Mist	Quiet authority. Not a hero overlay.
ARRIVAL	90–105 svh / White / settled rule	The institution
THE WORK	100–120 svh / Mist / four segments	The structure of the work
PRINCIPLES	100–115 svh / Soft Gray / stacked 01–04	The character
FOUNDER	100–120 svh / White / 7/5	Accountability
PEOPLE	Omitted, or about 70–90 svh / White	Presence, or absence of pretense
INVITATION	80–95 svh / Dark Green / returned horizon	The invitation
FOOTER	Content-driven / White or Mist	The grounding

Final screen test. A visitor who reads only the statements should leave knowing four things: TNT is a long-term investment institution and venture builder; the work is investing, insights, venture, and selective partnership; the firm will not appear larger than it is; a named founder is accountable, and contact is one clear path.

12 / Narrative motion system

The page moves as one argument about identity. 2045 is not restaged. The motion explains how a horizon becomes a firm, and how a firm keeps a human scale.

CHAPTER	VISUAL OBJECT	TRANSFORMATION	MEANING
ARRIVAL	Editorial rule	Holds, then extends	Structure is the starting condition.
THE WORK	Four segments	One rule divides evenly	The institution has four expressions, one weight.
PRINCIPLES	Stacked rules	Segments tighten and restack	Work is held to character.
FOUNDER	One remaining rule	Sets the measure of the biography	A person is placed inside the institution.
PEOPLE	The same rule	Opens into real names, or does not	Scale equals reality.
INVITATION	Returned horizon	Settles into stillness	Identity becomes a present invitation.

PRIMARY MOTION

Section-to-section transformation of the rule. This carries the story.

SECONDARY MOTION

Statement reveal by mask or whitespace. Surface change between White, Mist, Soft Gray, and Dark Green. Nothing else.

Not in this system. Parallax landscapes, counting numbers, logo draws, staggered card fly-ins, portrait zoom, and any motion that makes a small team feel like a large one.

13 / Cursor

Same observation tool as the homepage, used less. About is a reading page. The cursor should almost disappear into the text.

STATE	BEHAVIOR
DEFAULT	10–12 px circle. Dark Green on light surfaces. Mist on Dark Green. Immediate tracking, minimal lag.
NAVIGATION AND LINKS	Expand 3–5 px with a slight magnetic pull. Exact, not playful. Nav underline remains the Koi Red 1 px rule from the design system. The cursor does not replace it.
BODY AND PRINCIPLES	Stay at the basic circle. No highlight trails through paragraphs.
FOUNDER PORTRAIT	If a real photograph is present, a slight ring and a 3–4 px crop response. Examination, not a magnifying glass. No tilt.
PEOPLE PHOTOS	Same quiet crop response, only inside an actual photograph.
INVITATION	Return to the basic circle. Contact is the only emphasis, and it is a button, not a cursor trick.

Removal test. If the custom cursor is turned off, the About story must still be complete. Cursor work starts only after the rule handoffs read clearly.

14 / Arrival and the work

Structure first. Then the structure shows what the firm does.

ARRIVAL

Entrance	Header is the normal site header. The rule is already on the page. The statement is the first motion: it clears into the whitespace under the rule.
Hold	No pin. The visitor can read both paragraphs without a scroll lock.
Exit	Near the end of the viewport, the rule lengthens across the content frame, preparing the four-way division.

THE WORK

Divide	The lengthened rule splits into four segments of equal length. They settle above Investing, Insights, Venture, and Partnerships.
Copy	The section title arrives with the split, not after a finished diagram. The idea and the object appear together.
Links	Each activity can be entered. The split itself is not a control.

Story test. The visitor should feel that TNT’s work is a division of one institution, not a catalog they are being sold. Four equal segments. No card shadow. No icon set.

Homepage continuity. On the homepage, one rule fractures into six research windows: one worldview, many questions. On About, one rule divides into four activities: one firm, the work it does. Do not reuse the six-window motif here. The counts mean different things.

15 / Principles and founder

The work is held to a standard. Then the standard has a name.

PRINCIPLES

Set-up	Four segments are still in a row as The work ends.
Tighten	They shorten, move into the right-hand column, and restack in order 01–04. Peripheral space opens. Soft Gray replaces Mist.
Reading	Each principle is fully readable when it settles. No line may be decorative-only. If the restack fights the type, show the stacked list already in place and skip the travel.

FOUNDER

Release	The stacked rules recede. One rule remains and moves to the measure of the biography column.
Portrait	The photograph, if it exists, is already in the frame. It does not slide in from off-screen and it does not scale up to fill the viewport.
Boundary	The Founder's Notes line appears last, after the biography, as a quiet rule of voice — not as a caption on the portrait.

Story test. Cover the portrait. The section should still read as an institution that is founder-led. Cover the name. The previous chapters should still have explained TNT. Both tests pass only if the founder is accountable and not the subject of the page.

16 / People, invitation, collapse

The page must look finished when almost nothing personal is public yet.

CONDITION	WHAT THE VISITOR SEES	MOTION
FOUNDER ONLY	Founder chapter ends. Invitation begins. No blank band, no placeholder tiles, no “advisors” heading.	The remaining rule travels from the biography measure into the Dark Green horizon. One move, no pause for missing people.
TEAM OR ADVISORS EXIST	A short White continuation. Group label only for a non-empty group. Names in display order.	The rule opens horizontally just enough to sit over the row, then continues to the close. No stagger that implies a larger cast waiting off-screen.
PERSON HIDDEN IN CMS	Treated as absent. Layout reflows. No reserved gap.	None beyond the reflow.
INVITATION	Dark Green. Headline, one paragraph, Contact. Low horizon.	Surface change and a settling horizon. Then stillness.
FOOTER	Shared site footer.	None.

Launch test. With only a founder biography and no portrait, no team, and no advisors, the page still feels complete: Arrival, The work, Principles, Founder, Invitation, Footer. Completeness comes from judgment about what to omit.

17 / Responsive and prototype order

Preserve the story when the choreography simplifies.

CONDITION	RULE
POINTER DESKTOP	Full rule handoff. Custom cursor only after the handoffs work.
TABLET	Same chapter order. Four activities may wrap 2×2. Founder stacks portrait under the biography. No custom cursor.
MOBILE	Same chapter order, single column. The rule remains a short horizontal mark at the head of each chapter. No parallax. People, if any, stack.
REDUCED MOTION	No travel of the rule. Each chapter opens in its resolved layout. Surface changes may fade briefly. Copy and order stay identical.
KEYBOARD	Visible focus on header, activity links, Manifesto, Founder’s Notes, people links, and Contact. Independent of cursor and scroll.

PROTOTYPE ORDER

	PROTOTYPE	PASS CONDITION
01	Arrival on White	Reads as an institution, including on a direct visit with no homepage memory.
02	Four-way division	Feels like one firm, not four cards, and not the homepage’s six research windows.
03	Principles restack	Reads as character, distinct from the investment filtering sequence.
04	Founder after the institution	Portrait never leads. Page still works with the portrait removed.
05	Empty people and careers	Both collapse with no gap and no apology.
06	Invitation	Horizon returns, motion stops, Contact is the only action.

18 / Content boundaries

The layout is not allowed to imply a firm that the content does not support.

PUBLISH

- Who TNT is, in institutional language
- The four activities, without performance or fund detail
- Short principles, with Manifesto as the long form
- A real founder name, role, and approved biography
- Team and advisors who are public and current
- One contact path
- English and Vietnamese as separate writing, not a mirrored translation

DO NOT PUBLISH

- Fund size, structure, investors, or private performance
- Holdings and internal reporting
- Offices, departments, or headcount that do not exist
- Empty team categories or fictional advisors
- A careers grid with no approved role
- Personal-brand framing that puts the founder ahead of TNT
- Automatic Vietnamese pasted under English sentences

SLOT	SOURCE	UNTIL IT EXISTS
FOUNDER NAME AND BIO	Approved profile. English and Vietnamese written separately.	Keep the chapter structure. Mark the biography as unpublished. Do not invent a life story in the layout.
PORTRAIT	Approved photograph.	Omit the image area entirely.
TEAM / ADVISOR	Team member records set to public.	Omit the People section.
OPEN ROLE	An approved public opening.	Omit. Contact remains the path.

Success test. If every motion is removed, About still tells a complete story through order, omission, and composition: institution, work, character, accountable founder, and a single way in.
